#### The Grasshoppers.

We learned on Saturday last the unwelcome news that the grasshoppers in great numbers, have made their stopping place in the north-western corner of the county, and are depositing their eggs. The same is true, to greater or less extent, of the counties to the west and north. They are cating up the young wheat, timothy and rye. These things have a very depressing effect on the farmers in the regions infected by the pests, and fills them with gloomy forebodings

Attention Stock Men.

Andrew county, this season, will as to the future. May kind heaven have an extraordinary large surplus of corn. The granaries of our farmers will be full and overflowing. And now, where is the market? The hogs are not here to feed it to, for last year, owing to the short crop, a great many were sold off, and this year the number is still further decreased by the prevalence of the hog disease. We hear of great numbers dying off in the northern half of Andrew, and Nodaway counties. Corn can therefore be purchased here on the most favorable terms, and the attention of Stock men throughout the country, desiring to winter their cattle and hogs, is particularly directed to the unusual facilities that can be afforded them by the farmers of Audrew county.

> Brush Hats, at Mrs. Buskirk's. Mr. A. S. Keeves, one of our leading

nerchants, long connected with the firm of Wm. Zook & Co., of Savannah, has purchased the entire stock of goods of the old firm, and will hereafter con duct the business by himself. Success to him, for he deserves it.

Dr. Faulkner paid a pleasant visit o our office on Saturday last. He is a genial well-informed gentleman, and

ve wish we had a county full of such. He has taken great interest in the Fruit Growing and Nursery business. He brought down twenty five varieties of splendid apples, principally of his own raising, and some from his neighbors, and some specimens of Grapes, which he handed over to Mr. Ely, who takes them to the St. Joseph Exposition.

Mr. Ely has of his own, and from others, an unusually large and excellent collection of Fruits, etc., and will compete for the premium for 'The Finest Display of Fruits." He obtained the premium for the same last year.

#### Things About Parker.

Things About Parker.

James W. Duncan who lives in the vicinity of Parker, some sixteen miles northwest of Savannah, gave us a short call on Tuesday afternoon last. He was on his way to the St. Joseph Exposition, and if he sees any of the improved stock of hogs down there he considers better than what he already has, will purchase some. He says the Nodaway river has at last got within its banks, and that the mill is again running. A great deal of damage was done by the high water in drowning the stock, washing away fences, damaging crops, and the like. The backwater got around the stacks of wheat of Samuel Praiswriter so as to float them, and he thus lost about 300 bushels of wheat. The grasshoppers come down Thursday last in larger quantities than they did on their former visit, and are playing destruction with all things green. Among the brightest pages of our nation's history will be those which record the successful results of the great general sentiment in Syria was one of the Mohammedan portion of the population, and the withdrawal of all the troops, hitherto kept for the protection of the towns, caused great anxiety among the Christians, especially in Aleppo and Damascus, the former of whom dread a repetition of the government. The Republican party indeed stands for peace as it does for freedom and progress. None of these great interests can be intrusted to the hands of the so called Democratic party. That party has not enconducted while the Republican party rests not under even the suspicion of its devotion to humane principles, nor can it fall under any such auspicion. A Dozen Points.

We give twelve good points why the Republican party should be preferred to Democracy. A hundred equally as good could be given:

1. It represents the intelligence and loyalty of the sation.

2. It is the champion of free education, and an advocate of the rights of labor.

3. It preserved the Republic is THE Copartnership heretofore existing under the style and firm of Wm. Zook & Co., ha
